*A unique film & music event you can only experience live*

## WRITTEN IN DUST 挥尘

The tragic tale of three Chinese rural migrants seeking the new life that modern Beijing promises, but finding moral corruption, lies, betrayal and, ultimately, tragedy.

Shot with a classical cinematic sensibility, the film shows Beijing as rarely seen and tells a powerful story that resonates universally.

All screenings with live music accompaniment by:

Ling Peng (guzheng, erhu)  
 Andy Middleton (guitar, keyboards)

A spellbinding blend of musical traditions & instruments.  
 Enthralling music creating moods of optimism, tension,  
 violent threat, tragic melancholy and tenuous hope.
